

CARLA BECKER
PERMANENT MAKE-UP

PERMANENT
MAKE-UP
PRE-PROCEDURE
INFORMATION

- Please read the instructions below prior to any permanent make-up procedure, this also includes corrective camouflage.
- All permanent make-up procedures are multi-appointment procedures. You will need 2 sessions, 8 – 12 weeks apart, and then a colour boost every 12 – 24 months depending on the technique used. Please remember the treatment is not considered complete if there was no follow-up session done, in the specific time period.
- Permanent Make-up is not a science, it's an art and an adjustment of colour or shape that might be required. PLEASE NOTE: The follow up procedures are not included in the first procedures price.
- When your procedure is completed the colour will be intense and very dark. It will take 3-5 days for this colour to settle and heal in the skin allowing a soft natural colour to emerge.
- Lip application will be extremely dark and then flake or scab to almost invisible. Allow at least 21 – 28 days to determine the amount of colour retained. Due to the nature of the mucous membrane the colour will always have a subtle end result. Very deep, dark colours are almost impossible to achieve.

1. Please inform your permanent make-up artist BEFORE you finalize and confirm your appointment if you ever had permanent make-up done with another artist.
2. The treated area will become red and inflamed, so it is advised not to make any social engagements for a few days.
3. On the day of the procedure please wear make-up and bring your eyebrow pencil for colour matching.
4. Please do not wear contact lenses during or directly after the procedure until swelling has completely subsided. Remember to bring your glasses. This is only for EYELINER procedures.
5. If you have a history of cold sores or fever blisters, it is recommended to visit your GP prior to any lip procedures to prescribe oral medication. Failure to do so may lead into a herpes simplex virus and can interfere and destroy the permanent make-up results.
6. If you have an extremely oily skin the Microblading technique will not work well for you, The constant production of oil will cause the hair strokes to heal with a diffused, softer look. That will cause your healed result more powdery than desired.
7. Before and After photos will be taken for our records only and will not be published without clients written consent.
8. Sensitivity of the application is greatly increased if a client is pre-menstrual.
9. Please inform your permanent make-up artist if you are using any form of blood thinning medication.
10. IMPORTANT NOTICE: No prescribed medication should be discontinued without permission of your doctor. If unsure please feel free to contact Carla before the appointment.
11. Due to strict hygiene and sterilization we discourage clients to bring along a friend to sit in on a procedure. If you really feel it is necessary, it must be prearranged by Carla. Alternatively, they are welcome to wait at reception or in the waiting room.
12. Please remember to remove all your eyelash extensions, 3 days prior to your permanent eyeliner procedure, it can only be reapplied within 4 weeks.
13. We do accept cash, credit cards and debit cards. Regretfully no cheques and Electronic Transfers.
14. We kindly request that you be considerate in instance when you are running late, Carla won't be able to assist you if you are more than 10min late. If for whatever reason you cannot make your appointment please inform us before 48 hours.
15. There is a 48hour cancellation or rescheduling policy.

For any further enquiries please feel free to contact us. An informed client is a happy client!
